| Friday, January 14 | Hôtel-Dieu Grace Hospital | 1:00 – 2:00 pm<br>Conference Room |

The Erie St. Clair Local Health Integration Network (LHIN) and Consolidated Health Information Services (CHIS) have licensed the Medworxx Utilization Management System (UMS) for all five of the hospitals in Erie St. Clair. The Medworxx UMS is a patient flow tool used by clinicians:

- To assess the appropriateness of admission of both acute and non-acute patients and,
- Daily for patients' continued days of stay, identifying care delays and when it is safe for discharge.

The Medworxx UMS is currently used to assess patients in more than 7,000 beds in Ontario, which represents approximately 38% of all acute care beds and more than 13,000 beds in the rest of Canada. The Erie St. Clair LHIN is the second Ontario LHIN to license the Medworxx UMS at a LHIN level.

In anticipation of the Regional UMS implementation you are invited to attend an Information Session that will:

- outline the goals and objectives of the UMS implementation,
- the benefits of the system for patients, staff and the system as a whole, and;
- the implementation plan over the next few months.

The sessions will be repeated across 5 hospital sites – you only need to attend one. Anyone interested in attending is welcome to do so. The session will be of particular interest to:

Executive Leads, Chief Nursing Executives, Nurse Directors, Unit Managers, Patient Access and Flow and ALC Managers, Privacy and Security Personnel, Communications Personnel, Decision Support Personnel, Utilization Directors/Managers, Chiefs of Staff, Physician Department Chiefs, other physicians, Members of Hospitals' HiTech Committees, Discharge Planners, Social Workers, Education Personnel, Health Records Directors and CCAC representatives.

**No RSVP is required. We Look Forward to Seeing You at One of the Sessions!**

If you have any questions, please contact: Marilyn Cadotte, Project Manager, RCUM Implementation Consolidated Health Information Services, Tel: 519-437-6103, marilyn.cadotte@consolidatedhealth.ca
