

Memo to Everyone

Subject: Paediatric Unit

Date: September 16, 2014

Effective immediately, as a result of a sudden increase in pediatric patients attending the emergency department and some being admitted for severe respiratory issues we will be restricting visitors to the Paediatric Unit, Met campus, to 18 years of age and over. Only in extraordinary case by case circumstances will this restriction be waived.

These visitor restrictions for the Paediatric Unit are being put into place to protect the health of paediatric visitors.

Thank you for your cooperation.
