

# Do you know the value of an MRI appointment?

## MRI APPOINTMENTS - KEEP IT OR CANCEL IT. DON'T WASTE IT!

- Windsor Regional Hospital receives approximately 150 MRI requests per day
- Between both MRI machines there is the capacity to perform 75 exams per day
- Average number of patients that don't show up for their exam is 26 per week
  - Average wait time for MRI appointment – 90 days

### What's the impact?

For every appointment that is missed another person is required to wait longer to have their needs addressed.

As you can see by the sheer volume of requests that are received on a daily basis why it takes so long to get an appointment. Everyone's time is valuable so please be considerate of your loved ones, friends and neighbours and show up to your scheduled appointment. If a circumstance prevents you from attending please call and we would be happy to reschedule.
