## H1N1 Vaccines Available

This year it is a different flu season and we know that the good health of our staff is critical in meeting the challenges of this season. The H1N1 is ready for distribution and Clinics will be taking place for WRH on October 27 in Met Admin Conference Room #2 from 1330-1630 and on October 28th in the Met - Auditorium Side A 1330-1630, October 29th in the Met - Auditorium Side A 0630-0930 and October 30 in Met Admin Conference Room #2 0630-0930. Clinics are also scheduled November 2nd at Malden Park - Education Classroom 1330-1630, Nov 3 Malden Park - Education Classroom 1330-1630, Nov 4 Malden Park - Education Classroom 0630-0930, Nov 5th Western - Learning Resources Conference Room 0630-0930 and Nov 6th Western - Learning Resources Conference Room 0630-0930. Flu vaccines are safe. They will not give you the flu. The vaccine is made in a way that makes this impossible. Vaccines produce immunity to specific diseases by stimulating the production of antibodies.

## Canadian Patient Safety Week

Canadian Patient Safety Week is November 2 to 6th, 2009. This year's theme is **Ask, Listen, Talk**. Watch for some exciting initiatives at both Campuses to commemorate this important week.

## Last Call for Chiller Thriller

### Did you know?

According to Canada's Chief Public Health Officer, David Butler-Jones, the risk of experiencing severe side effects after receiving the H1N1 vaccine is one in a million, compared with the 20 to 35 per cent of the population who will get sick from this pandemic flu without protection. "If every single Canadian is inoculated," he said, "then 30 Canadians could have the potential for a severe side effect, compared to 10 million people sick, 100,000 people in hospital and 10,000 people dead."
