## Recycle Yourself

The greatest gift one can give is their personal support to others. It is the human act of consideration and respect among individuals. Consider supporting others through an organ and tissue donation. It's priceless and could very well save a life! Over 1500 Ontarians are waiting for a life-saving organ transplant however, less than 25 per cent have registered their consent to donate. People believe that the organ donor card they signed years ago is sufficient however, to be sure, you, your family, your friends and co-workers must register. It only takes a minute to register and could change the life of someone in need. Windsor Regional Hospital has set an ambitious goal of encouraging at least 500 people to become donors. Currently 180 have registered. Please visit the WRH website to take this important step.
