

UNREAL 3 INGREDIENT PASTA SAUCE

SUBMITTED BY: Cindy Thompson - RN, FBC

My grown kids love this best with penne. I usually double the recipe so I have some on hand. I freeze the leftovers flat in Ziploc bags so they can take it out of the freezer; defrost it for a quick meal!" I found this recipe on Pinterest. I was skeptical to try it because I could believe a pasta sauce could taste so good with only 3 ingredients. After we made it we are hooked. I don't make anything else.

INGREDIENTS:

2- 28 ounce cans of tomatoes
(crushed, diced or whole)

1 large onion chopped

1 cup of butter

DIRECTIONS:

1. In a large saucepan melt butter over medium heat. Add chopped onions and sauté adjusting the heat as necessary until the onions are soft. Add both cans of tomatoes and cook for about a half an hour on low to medium heat.
2. This next part isn't necessary but just makes the sauce even better. Turn off the heat. Blend with an immersion blender until smooth and the onions are blended. Add salt and pepper to taste as needed. Turn the stove back on low and simmer for an hour or two.
