I chose this recipe because it is something my mother always made when I was a child. It is a simple and delicious treat that can be made correctly by anyone, even beginners.

DIRECTIONS:

1. Preheat oven to 325F
2. Stir together peanut butter, egg and sugar until blended.
3. Place in a 9x9 pan.
4. Bake for 25 minutes or until base looks cooked
5. Remove from oven, sprinkle chocolate chips on peanut butter base while still hot.
6. Allow chocolate chips to soften about 5 minutes
7. Spread chocolate chips with a knife evenly over the peanut butter base.
8. Allow to cool completely then cut and serve.
9. Makes 16-24 squares depending on desired size.

INGREDIENTS:

1 cup peanut butter

1 egg

1/2 cup sugar

1/2 cup chocolate chips
