Can-struction | Week 3

Ben Parent (SOP) throws a Pie in the face of Connor Paterson (MBA Student) during the 1:00pm huddle

In the spirit of last weeks combined huddle, the 11am and 1pm team's contributions were combined. The overall contributions exceeded the 100-item goal, resulting in the first spin of the wheel! MBA Student Connor Paterson stepped up, and ended up getting a pie in the face.

This week, the goal remains at 100 items for each huddle. A huge thank you to the Odette MBA class of 2016 for their efforts in collecting cans for the cause. Earlier this week at their Christmas Party, the class raised over 50 cans that they generously donated to Windsor Regional Hospital. These cans will be split in half and added to each huddles contribution for the week. Hopefully this will help with reaching the weekly goal!

Happy Collecting!

End of Shift Checks – 6 E/W

After the success of End of Shift Checks on the 8th floor (Neurology), roll out of the process will continue to spread to early adopters on the 6th floor (Surgery) at Ouellette. December 8th marked the official launch for the 6th floor, where front line staff were engaged in the End of Shift Check Process. The Med Fluid SOP project team, Monika Marshall (CPM for Surgery) and Nick Sapardanis (CPM for Neurology) will support the front line staff to ensure they have what is needed in order to adopt the process! The official roll-out of the End of Shift Check Process will occur in January and be staggered across floors at both the Metropolitan and Ouellette Campus.

SOPs Contribution to Accreditation

SOP was fortunate to take part (with the rest of the organization) in the preparations for and process of Accreditation last week. SOP staff and SOP Project Patient Representatives were able to attend meetings with the surveyors that discussed and highlighted the important work and improvements that SOP Project Teams have accomplished in the last year. A significant achievement for the Project Teams was that the SOP Process was highlighted by the Accreditation team as one of WRH's top 3 successes along with re-alignment and our Mission, Vision & Values. The SOP Team was also proud that the "strong quality culture" that WRH displayed was noted and how "SOP was evident in everything we do" according to Accreditation Team Lead Caroline Barbir. Congratulations to all staff involved with and supporting the SOP Journey!

Have a great weekend!!

The SOP Team Future@wrh.on.ca
