

Hello Everyone:

SAVING TREES

Within the OR Scheduling / PSS project we have implemented some process changes to eliminate printing charts for the PSS area. There is an obvious environmental benefit of saving paper, but this has allowed our clerical staff to lighten their load by eliminating running back and forth from the OR scheduling area to PSS with these printed documents. Small changes can bring great results!

THE GANG IS ALL HERE

Back Row: Natalie Sheeler, Paul Howlett, Andrea McInerney, Rachel Twohey, Patsy Morrow, Joshua Lomonaco
Front Row: Jeffery Elston, Tara-Ann Glasgow, Dayna Roberts, Ben Parent

We have had some additions over the past few weeks and are now at a full complement. As you see us around supporting the work of the project teams, don't be shy! If you have any questions or comments on any of the project work - we would love to hear from you.

Next week our Wave 2 projects will join us for their first official "Friday Huddle". Starting July 17, 2015, they will be part of the weekly huddles that take place Fridays, 11 am and 1 pm, in the SOP offices at both campuses. Put the date in your calendar and support the teams as they embark on the next stage of the SOP journey.

Have a great weekend !!

The SOP Team
