

## **Appointment of Dr. Rahi Victory Regional Colposcopy/Cervical Screening Lead Erie St. Clair Regional Cancer Program**

I am pleased to announce the appointment of Dr. Rahi Victory as the Regional Colposcopy/Cervical Screening Lead for the Erie St. Clair Regional Cancer Program.

Dr. Victory, like all Regional Colposcopy/Cervical Screening Leads across the province, will fill a critical role in supporting, developing and implementing organized and sustainable cancer screening for cervical cancer and increase the cancer screening rates of eligible Ontarians in our region. This role also includes reducing barriers to equitable cancer screening for the underserved, vulnerable and Indigenous peoples.

As part of this role, Dr. Victory support Colposcopy and primary care readiness for HPV Implementation. He will:

- Provide guidance and feedback on HPV program design elements
- Provide input and feedback on physician resources (e.g. OCSP lab requisitions)
- Provide guidance on physician engagement and communication planning

Dr. Victory received his medical degree from the Queen's University and completed a Fellowship in Reproductive Endocrinology and Infertility at Wayne State University. He specializes in Obstetrics, Gynecology, Reproductive Endocrinology & Infertility, and Minimally Invasive Surgery in Windsor. He is also an Adjunct Professor, Department of Obstetrics & Gynecology, University of Western Ontario.

Monica Staley Liang, RN BScN LLB, Regional Vice President, Cancer Services  
Erie St. Clair Regional Cancer Program | Ontario Health (Cancer Care Ontario)
