## Update :

- The Ontario government [announced](#) it is providing Cambridge-based Eclipse Innovations Inc. with \$1,408,475 from the Ontario Together Fund to scale up its operations to manufacture made-in-Ontario N95 masks. These masks are an essential piece of personal protective equipment (PPE) used to protect workers in healthcare and industrial settings. This investment is part of the government's plan to increase the capacity of Ontario-made PPE, while supporting local businesses during the safe and gradual reopening of the province.
