iPHIS = integrated Public Health Information System; PHO = Public Health Ontario; NOC = COVID19 Provincial Diagnostic Network Operations Centre; CCSO = Critical Care Services Ontario; dBCS = Daily Bed Census; CRCI = COVID-Related Critical Illness (COVID-Related Critical Illness (CRCI) is defined as: Admission to the ICU because of a clinical syndrome consistent with COVID, AND the patient has had a positive test that is consistent with acute COVID illness. COVID+ is a subset of CRCI patients whose last COVID test was positive.) MLTC = Ministry of Long-Term Care; RHRA = Retirement Homes Regulatory Authority; SOLGEN = Ministry of the Solicitor General.

\*Mode of acquisition is identified following the public health investigation and may not be available at the time the case is reported. Reported numbers should not be interpreted as mode of acquisition for the previous day's case count. The mode of acquisition is updated twice per week.

\*\*Effective reproduction number (Rt) is updated twice weekly and not daily. Rt is not calculated for PHU Regions with case counts < 12 over the reporting period.

\*\*\* More than 30 hospitals did not report information for June 30th, therefore this is likely an underestimate and will increase in tomorrow's counts

## Update :

- The Ontario government [announced](#) it is providing municipalities and urban Indigenous community partners with an additional \$150 million to continue to protect vulnerable people from COVID-19 by improving homeless shelters and creating opportunities for longer-term housing. This investment more than doubles the funding currently flowing to local municipal service managers and urban Indigenous program administrators through the Social Services Relief Fund.
- The guidance document for Management of Cases and Contacts of COVID-19 in Ontario that was previously released has now been uploaded to the ministry's website and is available [here](#).
