## Update:

- More people will be able to get back to work as additional businesses and services in certain regions across Ontario can begin [reopening](#) this Friday. The Ontario government in consultation with the Chief Medical Officer of Health and local medical officers of health is enabling more regions of the province to enter Stage 2 of the government's reopening framework. These regions are able to reopen due to positive trends of key public health indicators at the local level including lower transmission of COVID-19 sufficient hospital health system capacity local public health capacity to assist with rapid case and contact management and a significant increase in testing provincially.
- The Chief Medical Officer of Health issued a memo to hospitals regarding resumption of visitors in acute care settings. The "COVID-19 Acute Care Guidance" and "Operational Requirements for Health Sector Restart" have been updated to support resumption of visitors in acute care settings. Memo and updated guidance documents are attached and will be posted on the ministry's [website](#) shortly.
