COVID+ is a sub-set of CRCI patients whose last COVID test was positive.)

*Mode of acquisition is identified following the public health investigation and may not be available at the time the case is reported. Reported numbers should not be interpreted as mode of acquisition for the previous day's case count. The mode of acquisition is updated twice per week.

**Effective reproduction number (Rt) is updated twice weekly and not daily. Rt is not calculated for PHU Regions with case counts < 12 over the reporting period.

Update:

- As the province safely and gradually reopens, the [Ontario government](#) is enhancing case and contact management to quickly test, trace and isolate cases of COVID-19 to stop the spread of the virus and prepare for any potential future waves. These additional measures include a comprehensive case and contact management strategy, Protecting Ontarians through Enhanced Case and Contact Management, and, in partnership with the federal government, a new made-in-Ontario national app called COVID Alert.
