iPHIS = integrated Public Health Information System; PHO = Public Health Ontario; NOC = COVID19 Provincial Diagnostic Network Operations Centre; CCSO = Critical Care Services Ontario; dBCS = Daily Bed Census; CRCI = COVID-Related Critical Illness (COVID-Related Critical Illness (CRCI) is defined as: Admission to the ICU because of a clinical syndrome consistent with COVID, AND the patient has had a positive test that is consistent with acute COVID illness. COVID+ is a sub-set of CRCI patients whose last COVID test was positive.)

\*Mode of acquisition is identified following the public health investigation and may not be available at the time the case is reported. Reported numbers should not be interpreted as mode of acquisition for the previous day's case count.

\*\*Effective reproduction number (Rt) is updated twice weekly and not daily. Rt is not calculated for PHU Regions with case counts < 12 over the reporting period.

## Update :

- Today, the Ontario government [released](#) its safety plan for the resumption of class for the 2020-21 school year, outlining scenarios for how students, teachers and staff can safely return to classrooms in September. The plan also provides choice to parents, enhanced online learning, and additional funding. While the decision to return to the normal school day routine will continue to be based on medical advice, boards and schools are being asked to plan for alternative scenarios that may need to be implemented in September depending on the province's COVID-19 situation. The government's Approach to reopening schools for the 2020-2021 school year can be found [here](#).
- Updated guidance documents for Community Pharmacies and Independent Health Facilities have been posted to the ministry's [website](#).
