iPHIS = integrated Public Health Information System; PHO = Public Health Ontario; NOC = COVID19 Provincial Diagnostic Network Operations Centre; CCSO = Critical Care Services Ontario; dBCS = Daily Bed Census; CRCI = COVID-Related Critical Illness (COVID-Related Critical Illness (CRCI) is defined as: Admission to the ICU because of a clinical syndrome consistent with COVID AND the patient has had a positive test that is consistent with acute COVID illness. COVID+ is a sub-set of CRCI patients whose last COVID test was positive.)

*Mode of acquisition is identified following the public health investigation and may not be available at the time the case is reported. Reported numbers should not be interpreted as mode of acquisition for the previous day's case count.

**Effective reproduction number (Rt) is updated twice weekly and not daily. Rt is not calculated for PHU Regions with case counts < 12 over the reporting period.

Update:

- The Ontario [government](#) is allowing more businesses and services to open and getting more people back to work by moving the City of Toronto and Peel Region into Stage 2 on Wednesday. This decision was made in consultation with the Chief Medical Officer of Health and the local medical officers of health. It is based on positive local trends of key public health indicators, including lower transmission of COVID-19, ongoing hospital capacity, public health capacity to do rapid case and contact management, and a significant increase in testing.
