Actions Taken

- An updated [case definition](#) and [reference document for symptoms](#) have been posted on the Ministry's [website](#) in English and French. The updated case definition includes consideration for travel within Canada (as well as international travel), and includes updates to the 'probable' case definition to include people who were living/working in a facility known to be experiencing an outbreak. The updated symptoms list now includes multisystem inflammatory vasculitis in children. Other guidance documents are currently being updated to align with these changes.
- The Ontario government extended the Declaration of Emergency under the Emergency Management and Civil Protection Act [until June 2, 2020](#). Further information can be found [here](#).
