## Update

- Ontario Launches Mobile Vaccine Units in Hot Spot Workplaces. With the arrival of increased vaccine deliveries from the federal government starting this week, the Ontario government is further expanding its COVID-19 vaccine distribution plan with the launch of mobile vaccine units for small to medium-sized businesses in hot spot communities. These mobile units will begin offering vaccinations in Toronto, York and Peel at select businesses that have employees who cannot work from home and have a history or risk of outbreaks. Each public health unit will determine the small to medium-sized businesses where mobile units will be deployed.
- Long-Term Care Home and Retirement Home Guidance for Public Health Units is attached. It will be available shortly in French and English on the Ministry's website.
- Screening Tool for Long-Term Care Homes and Retirement Homes has been updated and is attached. It will be available shortly in French and English on the Ministry's website.
