CCM = Provincial Case and Contact Management Solution; PHO = Public Health Ontario; NOC = COVID19 Provincial Diagnostic Network Operations Centre; CCSO = Critical Care Services Ontario; dBCS = Daily Bed Census; CRCI = COVID-Related Critical Illness (COVID-Related Critical Illness (CRCI) is defined as: Admission to the ICU because of a clinical syndrome consistent with COVID, AND the patient has had a positive test that is consistent with acute COVID illness. COVID+ is a sub-set of CRCI patients whose last COVID test was positive.)

*Effective reproduction number (Rt) is updated twice weekly and not daily. Rt is not calculated for PHU Regions with case counts < 12 over the reporting period.

Update

- The '[COVID-19 Vaccine Information for Individuals that received a first dose of the AstraZeneca COVID-19 vaccine/COVISHIELD vaccine](#)' document has been updated. This is a supplemental document for patients who received a first dose of the AstraZeneca/COVISHIELD vaccine, to be reviewed before they receive a second dose of vaccine. The document will be updated on our website shortly.
- An 'AstraZeneca/COVISHILED COVID-19 Vaccine Second Dose Q&A for Health Care Providers' has been developed and is attached. This document will be available on our website shortly.
- [COVID-19 Guidance for Individuals Vaccinated outside of Ontario/Canada](#) is now available on the Ministry's website. This document provides Public Health Units with approaches for individuals who have received COVID-19 vaccination outside of Ontario or Canada.
- COVID-19 Vaccine Series Second Dose Eligibility Quick Reference has been developed and is attached (English only). English and French versions will be updated on the Ministry's website shortly.
- **Directive #3**
 - Summary of changes to Directive #3
 - **Daily symptom screening** – Retirement Home residents require at minimum once daily symptom screening. Long-term home residents are still required to

be screened at least twice daily including temperature checks. This reflects the differences between the two sectors in terms of both the overall health status of the residents as well as the type of setting.

- **Physical distancing** – brief physical contact (i.e., hugs) are now permitted between all residents and their essential caregiver(s) and/or general visitor(s) regardless of immunization status.
 - **Eye protection** – fully immunized essential caregivers are exempted from eye protection requirements as per MLTC and MSAA policies.
 - **Absences** - Homes may gradually resume social and temporary absences. In LTCHs, fully immunized residents may now go on both types of absences. In RHs, irrespective of immunization status, social absences are allowed for all residents now, and temporary absences will be permitted once the province enters Stage 1 of the Roadmap to Reopen. All residents returning from temporary absences must undergo testing and isolation, where applicable, as per requirements under the Admissions & Transfers section of Directive 3.
 - **Visitors** - Homes may gradually resume visits by general visitors. Outdoor visits are strongly encouraged over indoor visits. Please see MLTC/MSAA policy documents for maximum number of visitors permitted at any one time.
- The [COVID-19 Screening Tool for Businesses and Organizations \(Screening Workers\)](#) has been revised. Updates align with the [Guidance for Employers Managing Workers with Symptoms within 48 Hours of COVID-19 Immunization](#) and the [Management of Cases and Contacts of COVID-19 in Ontario](#).
 - [Ontario Expanding Accelerated Second Dose Booking to More Ontarians Ahead of Schedule](#) - Accelerated Appointments can be Booked Through the Provincial Booking System, Call Centre and Select Pharmacies
