STATEMENT REGARDING COVID-19 VACCINE EXTENSION OF SECOND DOSE TO 16 WEEKS

WINDSOR, ON. _ The following statement provides a status update on the Pfizer CVx vaccinations by Windsor Regional Hospital and a response to the government's announcement regarding the extension of period before receiving a second dose to four months.

Starting March 10, 2021, anyone who has received their first dose and is awaiting their second dose will not receive their second dose until four months after their first dose. This is pursuant to the [National Advisory Council on Immunization \(NACI\) recommendation found online here](#) and the [Government of Ontario's directive online here](#).

Those who will have the date for their second dose changed will be getting an email. For those without email, we will try to contact them; however, the following is a handy chart for individuals who had their first dose and are wondering when their new second dose date would be:
