

thank you...

“Get checked!”

Keith Dupuis had no symptoms.

His life was saved because of a simple check box.

When Keith was having regular blood work done for iron issues, his doctor decided it was a good time to run a new PSA test. It had been a couple of years since Keith’s last one. So he ticked the box ordering the test.

PSA tests search for signs of prostate cancer. The test came back with a PSA of 4.

Keith began a series of tests, every 3 months. Each time, the count increased. That’s when he was referred to Doctor Goel at Windsor Regional Hospital for follow-up. Dr Goel ran a biopsy on Keith’s prostate and the results were conclusive.

Keith had prostate cancer.

In February of this year, Keith had prostate surgery. Surgeons used

the da Vinci robot that donors like you helped fund.

Keith with his wife Connie

Now Keith is sharing his story for two reasons.

The first is to acknowledge the team that gave him such good care.

“Dr Goel went above and beyond, consulting my wife on every step in the

process. And Nurse Kate took care of me for days post-surgery. She explained everything we needed to know. They were both very compassionate and showed how much they really do care.”

Keith is also sharing his story to raise awareness about prostate cancer prevention.

“I’m hoping I can spread the word about prevention of this nasty prostate issue. Here is my message: get checked!”

Now retired and enjoying time spent with family, travel, and golf, Keith has a serious message for donors about how much impact you have with every gift you give.

“The more support our local healthcare teams get, the better it will be for patients and families when they need help the most. Your support goes a long way!”

Thank you for continuing Dr. Richard Boyd's legacy of care

On May 20, 2026, golfers, community leaders, and healthcare advocates gathered at Essex Golf and Country Club, for the Windsor Regional Hospital Foundation Charity Golf Tournament, presented by PCR Constructors Inc., raising over \$71,000 for the Dr. Richard Boyd Men's Health Program at Windsor Regional Hospital.

By coming together to celebrate Dr. Richard Boyd's legacy, we raised critical funding for the Men's Health Program in his name. As Jane Boyd noted, witnessing the community unite affirms that *"Richard's legacy*

of caring for patients lives on," enabling us to provide the advanced diagnostic tools our region deserves.

"Every single dollar raised remains right here in Windsor-Essex," states Cristina Naccarato, Executive Director, Windsor Regional Hospital Foundation.

"We are incredibly thankful to PCR Constructors Inc., Essex Golf and Country Club, Mrs. Jane Boyd, all of our sponsors, our leadership team, and the golfers who

Champion Sponsor - PCR Constructors Ltd. Foursome

demonstrated that community healthcare is a collective priority."

The event not only surpassed fundraising goals, but also reinforced the strength of community spirit. We extend our deepest gratitude to all the volunteers, participants, and sponsors who made this day possible. Your steadfast support continues to transform lives and inspire hope.

You Help Bring Care Close To Home

The Dr. Richard Boyd Regional Comprehensive Men's Health Program stands as a vital pillar of specialized care at Windsor Regional Hospital, ensuring patients have access to advanced treatment close to home.

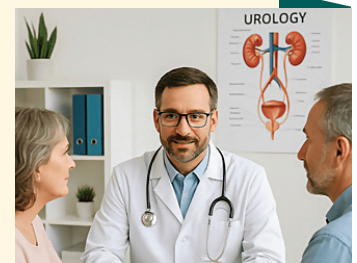

Jane Boyd, continuing her husband's mission, emphasizes that the program is designed to simplify what can be an incredibly daunting medical journey, *"He had a vision—to provide men with a*

seamless way to be cared for when experiencing prostate cancer."

By fostering an environment of open communication and support, the program actively engages in community outreach and awareness campaigns, striving to eliminate the stigma surrounding men's health issues and encourage proactive health management.

Windsor-Essex needs enhanced support for

urological care, as the local prostate cancer rate ranks among the highest in Ontario. The role of community funding is crucial. It is essential for recruiting specialists to ensure that residents receive timely, life-saving care close to home.

Building a Healthier Future Together

Community members at the ECCCA's Run/Walk-a-thon fundraiser

The Chinese community of Windsor and Essex has committed to a landmark \$500,000 pledge to Windsor Regional Hospital Foundation for the new hospital.

"This commitment reflects our shared values of care, education, and giving back, and our collective effort to help build a healthier future for generations to come," said Stephen Tsui, President of the Essex County Chinese Canadian Association.

The Chinese Association of Greater Windsor (CAGW) partnered with Essex County Chinese Canadian Association (ECCCA) three years ago for the fundraising efforts for the new hospital. ECCCA has been dedicating proceeds from their fundraising events toward the new hospital since 2017.

In recognition of their generosity, a Multi-Purpose Education Room in the Fancsy Family Hospital will be named in honour of the Chinese community of Windsor and Essex.

"We are deeply moved by the leadership of the local Chinese community. Their early support highlights the power of collective philanthropy," said Cristina Naccarato, Executive Director of Windsor Regional Hospital Foundation. *"I thank each and every member of the Chinese community for your vision and for choosing to champion the future of healthcare for our entire region."*

The room will serve as a hub for learning and collaboration, fostering an environment where healthcare professionals can advance their skills and knowledge, ultimately benefiting the entire community. Such a legacy reflects the Chinese community's commitment not just to immediate needs, but to the sustained growth and development of the healthcare system.

The impact of this pledge extends beyond the walls of the hospital. It sets a powerful example of how collective efforts can bring about significant change, inspiring others to contribute to causes that matter deeply to them. As the ECCCA and CAGW continue their fundraising efforts, they invite members of the community to join them in this noble cause, creating a ripple effect of generosity and compassion.

Together, through shared vision and dedication, the Windsor and Essex communities are building a healthier, brighter future for all.

Your Gifts Support Essential Equipment!

Your gift to Windsor Regional Hospital Foundation helps your hospital to provide the best possible care for our patients. Here are just a few of the pieces of lifesaving equipment your generosity can help fund.

Freestyle Ultrasound Probe

A portable, bedside tool to see how well the heart is pumping and used to make quick, life-saving decisions without moving the patient to a specialized imaging suite.

OR/Cardiology
Cost: \$7,020

Transonic Sensor and Module - Monitor Hemodialysis

Specialized diagnostic tools ensure that the blood is actually flowing effectively and that the patient is receiving their full prescribed dose of treatment.

Renal
Cost: \$30,120

Blanket Warmer

Essential for maintaining a normal body temperature, which is often compromised by the cool environment of surgical suites and the effects of anaesthesia.

Ambulatory
Cost: \$13,159

Hats On For Healthcare Breaks Records!

Top Windsor Regional Hospital Staff Team
– Mental Health Team

The 2026 Hats On for Healthcare campaign made history by smashing its \$100,000 goal! Supported by title sponsor Greg Monforton and Partners, this 17th annual event raised its highest total ever. This achievement pushes the campaign's lifetime impact past \$800,000 for Windsor Regional Hospital Foundation.

This year, donors customized their giving. Participants chose exactly which hospital program received their financial support. Our incredible community united across several signature events, including the Radiothon broadcast, school "Hockey Helps" initiatives, and the lively Hatsquerade Happy Hour celebration.

From wearing unique hats to donating, the campaign's incredible energy advanced vital local medical care. Windsor Regional Hospital Foundation extends massive thanks to every sponsor, team, and participant. Our community's generosity ensures Hats On continues to change lives. Thank you for making a lasting difference!

Share Your Story

Have you or your loved one been cared for at Windsor Regional Hospital? We are always looking for stories from patients and families to share with our donors, so they can see the impact their donations have. Sharing your experience will allow you to spread the word about the life changing work

being done at Windsor Regional Hospital — and acknowledge any members of your medical team whose care and support really made a difference. Every story helps us show supporters and prospective supporters how important it is that we all pull together to raise money

for essential equipment and patient support programs. That way we can all help care for our loved ones and people in our community.

If you are interested in sharing your story of care, please email wrhfoundation@wrh.on.ca or call (519) 985-2656.
